

Insurance Information

Our office is committed to helping you maintain your insurance benefits, and we are in network with many insurance companies. However, because insurance policies vary widely, we can only estimate your coverage in good faith, and cannot guarantee coverage due to the complexities of insurance contracts.

When you visit our office please always bring your current insurance card. If you change insurance companies or employers, please let us know before any treatment is rendered.

Our staff will file insurance for you as a courtesy, and we will fully attempt to help you receive full insurance benefits for any treatment. However, you are personally responsible for your account, and all co-pays and deductibles are the responsibility of the account holder.
